DECEASED and Administrators

By Gary Noble Willis, 2019

1) Page numbers are from the original accounts book available online at FamilySearch.org

2) The handwriting is significantly less decipherable 1799-1800 (pages 249-306). Corrections graciously accepted via email at redmarker181969@yahoo.com

3) I have "guessed" at a woman's prior married name(s) based on her status as administratrix or executrix for a man currently not her husband. These estimates are not based on any other evidence.
